

# ESP32-C3-wroom32 and Ai-WB2-13 compatible

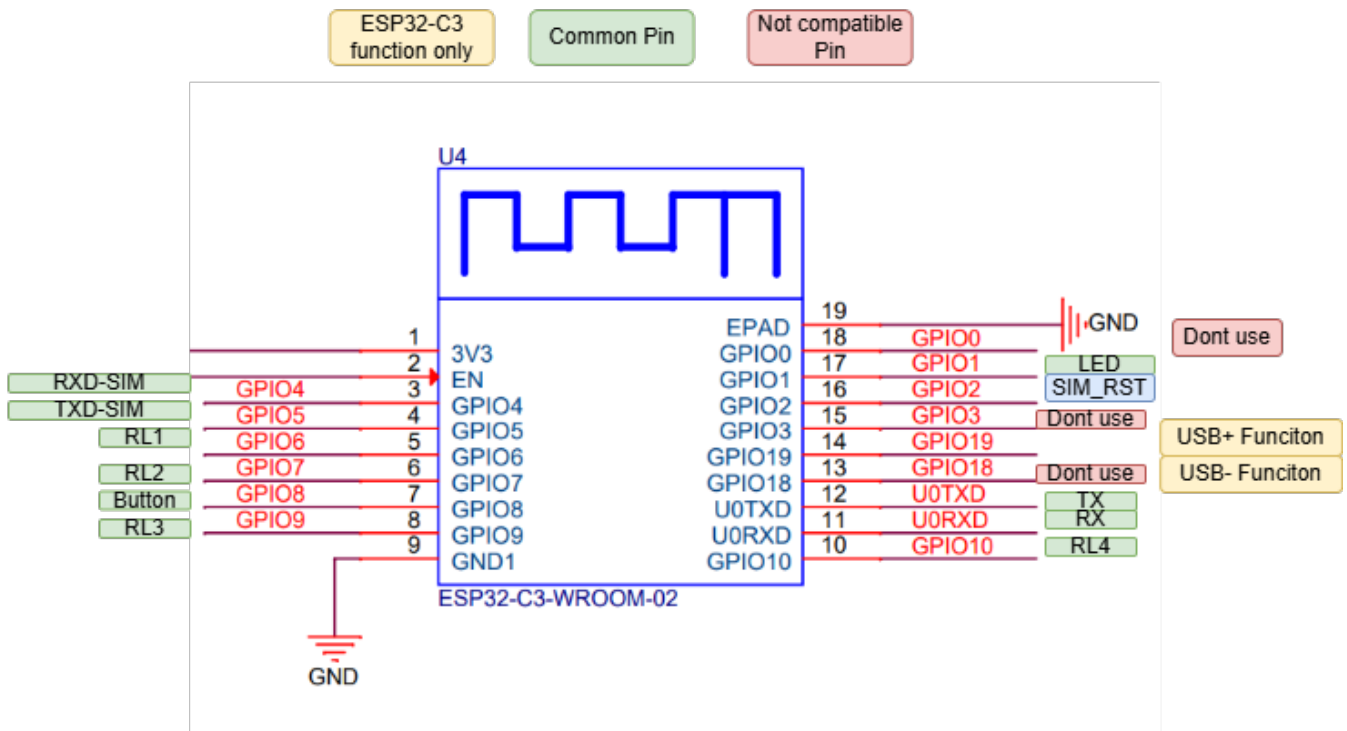

– Strapping pins eSP32-c3: GPIO2, GPIO8, and GPIO9

.At the moment of power-on,if Bootstrap GPIO8 is high, the module enters the programming mode;if Bootstrap GPIO8 is low, the module starts normally.

GPIO18 & GPIO3 should not be used due to missing pin in Ai-WB2-13

Current pin used in old version relay 6 channel
